Yellow warning
Thunderstorm

Between
12:00 Fri 20 Sep 2024 and
22:00 Fri 20 Sep 2024

Further Details (continued)

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you find yourself outside and hear thunder, protect yourself by finding a safe enclosed shelter (such as a car). Do not shelter under or near trees, or other structures which may be struck by lightning. If you are on an elevated area move to lower ground.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area

Reason for update

Warning area extended to include Gloucester, Tewksbury, Worcester and a greater part of mid-Wales as thunderstorms are or will affect those areas over the next 1-2 hours.
